## EDUCATION

---

### Vishwakarma Institute of Technology

Pune, MH

Bachelor of Technology in Computer Science(CGPA : 8.7)

Aug. 2021 – May 2024

## EXPERIENCE

---

### Freelance App Developer

Aug. 2021 – July 2022

**Skills:** React-Native, React JS, Git, Redux-toolkit

Remote

- Collaborated closely with clients to understand their requirements, translate them into technical specifications, and deliver high-quality mobile solutions.
- Created user-friendly interfaces, implemented robust backend functionalities, and integrated third-party APIs to enhance app functionality and user experience.
- Utilized version control systems, particularly Git, to manage source code and collaborate with other developers working on larger projects.

### React-Native Intern

Aug 2021 – Oct 2021

Batbird Inc.

Remote

- Assisted in developing key features and functionalities of the app, including user authentication, data retrieval from APIs, and real-time notifications.
- Participated in code reviews and provided constructive feedback to improve code quality and consistency within the development team.
- Designed and developed App Similar to Dream 11, where user can earn money by playing quizzes

## PROJECTS

---

### Land Registries System (Group Project) | Blockchain, Javascript, Solidity, React, Firebase, Mongo DB

- A user-friendly portal created to make land registration process easy-to-go. Buyer, Seller and Government supervisor all the three roles accounted in single website.
- Designed and developed a decentralized blockchain network using Ethereum platform and Solidity smart contracts to enable secure and immutable recording of transactions and events throughout the supply chain.

### Engineering Admission Application | React-Native , React-Hooks, Firebase

- A platform which show details (Collages Ranking, Placement Details, Fees Structure, etc., ) all engineering collages in Maharashtra and integrated Google map API which give exact location of collage.
- Implemented Map feature to get exact location of collages using Google Map Api's.
- Developed Realtime database in firebase to store the details of collages i.e. cutoff, fee structure, placement, etc.,

### Attendance Management System | python, Django, OpenCV, HTML,CSS,JavaScript

- A Django Based project using open-cv which detect the present student faces and take its attendance.
- Collaborated with OpenCv library implemented Face detection and recognition feature

### Covid-19 Application | React-Native, React-Hooks, Firebase

- A Platform That gives the exact number of Covid-19 Cases in India and All over the World using Government API's

## ACHIEVEMENTS

---

- Qualified for the **semifinal** of **FLIPKART GRID 4.0** and my team was among the **top 1300 teams** out of **0.15 million teams**.
- Qualified for the **semifinal** of **TVS Credit E.P.I.C. Challenge** and my team was among the **top 300 teams** out of 18 Thousand teams
- **500+ Problems** Solved on various Programming Platforms.

## TECHNICAL SKILLS

---

**Languages:** Java, C,C++, SQL, JavaScript, HTML/CSS,

**Frameworks:** React, React-Native, Bootstrap, Redux

**Developer Tools:** Git,VS Code, Visual Studio, Android Studio, Eclipse
